

SAKTHIVEL SHANMUGAM

AWS Cloud Engineer | DevOps Engineer | Terraform | Kubernetes (EKS) | CI/CD | Cloud Security | IAM | WAF
Chennai, India | +91-88070 52213 | shakthi198507@gmail.com | LinkedIn: linkedin.com/in/shakthi8510

PROFESSIONAL SUMMARY:

AWS Cloud & DevOps Engineer with **6+ years of experience** in designing, securing, and automating AWS cloud environments using Terraform, Kubernetes (EKS), Docker, and CI/CD pipelines. Experienced in IAM governance, cloud security, vulnerability remediation, infrastructure automation, container security, and production support. Good understanding of **CNAPP concepts, Wiz Security, Vulnerability management, and cloud compliance**. Skilled in implementing AWS security best practices including IAM, WAF, Shield, Security Groups, audit logging, and secure Kubernetes deployments.

TECHNICAL SKILLS:

- AWS: EC2, VPC, IAM, S3, RDS, Aurora, Lambda, ALB, Auto Scaling, CloudWatch, EKS, ECS, Route53, WAF, Shield
- GCP: Basic knowledge of Compute Engine, Cloud Storage, IAM, VPC, Cloud Monitoring (No production hands-on experience).
- Infrastructure as Code: Terraform, CloudFormation
- Containers: Docker, Kubernetes (EKS)
- CI/CD: Jenkins, GitLab CI/CD, Azure DevOps
- Monitoring: CloudWatch, Prometheus, Grafana, ELK
- Databases: RDS (MySQL, PostgreSQL, Oracle, SQL Server), Aurora, ElastiCache
- Networking: VPC, Subnets, Security Groups, VPC Peering, Transit Gateway, Cross-Region Connectivity
- Compliance & Security: IAM, RBAC, SSO, WAF, Shield, IAM Governance, Audit Logging, CNAPP, WIZ.

PROFESSIONAL EXPERIENCE:

AWS Cloud Security Engineer | Prolax IT Solutions | Oct 2025 - Present

- Manage AWS infrastructure including EC2, VPC, RDS, ALB, Auto Scaling, and S3.
- Troubleshooting CI/CD pipeline failures including build failures, artifact issues, Docker push failures, and deployment errors.
- Resolved IAM permission issues, cross-account access problems, and role misconfigurations.
- Managed OS patching, application updates (Nginx, MySQL), and security patch compliance.
- Performed infrastructure upgrades including EKS version upgrades, AMI updates, and load balancer migration.
- Handled incident, problem, and change management processes aligned with ITIL practices.
- Implement monitoring using CloudWatch, Prometheus, and Grafana.
- Resolve IAM, networking, and production issues in multi-account environments.

Cloud Engineer L2 | Star Health | Oct 2024 - Aug 2025

- Managed AWS workloads and Terraform-based infrastructure deployments.
- Managed CI/CD pipelines and resolved environment variable issues and deployment failures.
- Performed OS and application patching ensuring compliance.
- Upgraded Kubernetes clusters, Docker images, and database versions.
- Implemented IAM policies and resolved security issues.
- Supported ITSM processes including incident and release management.
- Implemented monitoring, alerting, and incident response processes.
- Performed RDS upgrades, patching, and disaster recovery activities.

AWS DevOps Engineer | KKS Tech Solutions | May 2019 – May 2024

- Managed EKS clusters, Docker workloads, and Jenkins CI/CD pipelines.
- Implemented Blue-Green deployments and backup strategies.
- Built Terraform-based infrastructure and automated deployments.
- Handled CI/CD failures and improved deployment stability.
- Performed RDS upgrades, EBS scaling, and AMI upgrades.
- Managed patching and upgrade activities across environments.
- Supported monitoring, incident response, and troubleshooting.

DOMAIN HIGHLIGHTS:

Prolax – E-Commerce (Nov 2025 – Present)

- Managed AWS infrastructure (EC2, S3, RDS, VPC, ALB, Auto Scaling) for high-traffic applications.
- Built CI/CD pipelines using Jenkins & GitLab CI/CD for automated deployments.
- Performed S3/RDS backup, migration, and lifecycle management ensuring data durability.
- Implemented security using AWS WAF, Shield, IAM, and Security Groups.

Star Health and Allied Insurance – Health Insurance (Oct 2024 – Aug 2025)

- Designed CI/CD pipelines for Dev, QA, and Prod environments reducing deployment time.
- Implemented IaC using Terraform & CloudFormation for scalable infrastructure.
- Architected highly available systems using ALB, Auto Scaling, and Multi-AZ.
- Executed Blue-Green deployments for applications and RDS with zero downtime.

Toy Zone – E-Commerce (July 2023 – May 2024)

- Deployed containerized applications using Docker, ECR, and Kubernetes (EKS).
- Automated infrastructure using Terraform & Ansible, reducing provisioning time by 70%.
- Implemented monitoring using CloudWatch & ELK for real-time visibility.

Isoft – Healthcare Application (June 2020 – July 2023)

- Performed RDS Blue-Green deployments ensuring zero downtime upgrades.
- Automated Linux patching using shell scripts for security compliance.
- Supported deployment activities including pod management and configuration updates.
- Supported healthcare insurance applications while adhering to security and compliance requirements.
- Implemented IAM controls, audit logging, and access management practices to protect sensitive business data.
- Participated in change management, incident management, and security reviews for production environments.
- Ensured compliance with organizational security standards through patching, monitoring, and vulnerability remediation activities.

TIAA – Banking Project (May 2019 – Jun 2020)

- Built infrastructure using Terraform & CloudFormation (EC2, VPC, ALB, Security Groups).
- Developed CI/CD pipelines with Jenkins, Docker, and static code analysis tools.
- Optimized multi-cloud (AWS, Azure, Oracle) performance and cost efficiency.

EDUCATION:

MBA – HR | Madras University

B.Sc Mathematics | Madras University
